The authors of the best papers of these conferences are also invited to submit enhanced and extended versions (no less than 10 pages) to the following international journals. A new round of review is also necessary

**INTERNATIONAL JOURNAL OF  
MATHEMATICAL MODELS AND METHODS  
IN APPLIED SCIENCES**

**INTERNATIONAL JOURNAL OF  
MATHEMATICS AND COMPUTERS IN SIMULATION**

**INTERNATIONAL JOURNAL OF CIRCUITS,  
SYSTEMS AND SIGNAL PROCESSING**

**INTERNATIONAL JOURNAL OF COMMUNICATIONS**

**INTERNATIONAL JOURNAL OF COMPUTERS**

## **NAUN:**

In 2000, a number of prominent members of the academic community from countries of North America and Europe decided to set up a new organization, named NORTH ATLANTIC UNIVERSITY UNION (NAUN), whose main purposes are to promote initiatives aiming at enhancing scientific exchanges, disseminating information, coordinating research networks and technology transfer in the field of Science and Engineering within the Union. After some years, we started organizing conferences (2006) and have some scientific journals also. Our goals are to promote the co-operation between the university professors and academic scholars in various fields of science and engineering and to cultivate an environment for the advance and development of modern science. Our objective includes: Promoting the interactions between the scientists and engineers. Advancing the applications of scientific methodology and engineering techniques to the society and industry. Facilitating the exchange of information and ideas among the engineers and scientists. NAUN is also focusing on advanced technologies, tomorrows' products and inventions, and promotes them through various events and publications. NAUN is relying on its individual and corporate membership support, active scientists, tight relationships with existing scientific organizations (ACM, ACS, AMS, IET, IEEE, WSEAS, etc.), and customized relationships with standard bodies (ITU, IETF, TMF, etc.) NAUN targets national academia and national universities for membership and promotion. NAUN intends scholarship support for participants to different events it organizes and promotes equal access to community resources. The overall aim of NAUN is to develop a series of knowledge transfer mechanisms, particularly directed towards the exchange of information between academics and professional users within industry. This is achieved through a range of activities organised by a dedicated team of staff both within the Institute and its associate companies. A large network of prestigious contacts and links have been established with many organisations throughout the world. The NAUN network is coordinated by several university professors in USA (see committees of the journals and conferences) on a rotating base.

## **Hellenic American University:**

The Hellenic American Union was instrumental in the founding of the Hellenic American University, and continues to substantially support its operations in Athens, Greece. The Hellenic American University is a non-profit institution of tertiary education, chartered in the State of New Hampshire, USA, which is committed to providing an American university education that draws upon innovative developments in educational technology and methodology and adapts them to the environments of contemporary Athens and beyond. The mission of the Hellenic American University is to be a leading provider of the highest quality American graduate and undergraduate education that is globally focused, inter-culturally informed, and career oriented. Serving Greece and other countries in the Balkans, the Middle East, and Eastern Europe, it prepares its graduates to contribute to economic and social development locally, regionally, and internationally. You can find further information about the University at [www.hau.edu.gr](http://www.hau.edu.gr) or you may contact the University at 30-210-368-0950 and ask to speak with Olga Asvestopoulou. The ACADEMIC PROGRAMS at HELLENIC AMERICAN UNIVERSITY exemplify our Mission to make excellent and career-relevant American higher education available to students in Athens, Greece.
